HIA – Australian GreenSmart Energy Efficiency Award 2016
Notice of Motion – Parliament of Tasmania
12 September 2017

1831 The Minister for Building and Construction to move —That the House:—

- (1) Congratulates Tasmanian building company Skookom owners Elise and Ian Simondson, who have won the recently announced HIA Australian GreenSmart Energy Efficiency Award 2016.
- (2) Notes the winning Skookom 'Kettering House' is set on 80 hectares overlooking Bruny Island and boasts a 7 star energy efficiency rating.
- (3) Further notes that Skookom, working with Isaac Tyson of Earth Craft Design and Construction, have produced not only a nationally recognised innovative, environmentally economic and sustainable build which is completely off-grid – but also a home that sits naturally within its surrounding environment.
- (4) Further notes that stone hand-picked from the site was used in conjunction with hardwood that had been sourced, felled and milled from the property.
- (5) Recognises Skookom as an industry leader at the forefront of sustainability. Making a positive difference to the environment with their outstanding sustainable building practices and delivering an environmentally-responsible home.
